INVALIDS' HOTEL AND SURGICAL INSTITUTE

No. 663 MAIN STREET, BUFFALO, NEW YORK

A Full Staff of Physicians and Surgeons for the Treatment of All Chronic Diseases

Radical Cure of Rupture. Hernia (Breach), or RUPTURE, no matter of how long standing, or of what size, is promptly and permanently cured by our specialists, and without dependence upon trusses.

Throw Away Trusses. There is no longer need of wearing clumsy, awkward, chafing, old trusses, which at best give only partial relief, seldom cure, and often produce inflammation and strangulation from which thousands annually die.

Varicocele. Varicocele (False Rupture), or enlarged veins, has been very largely treated during the past forty years and with the most gratifying results. Our improved appliances and treatment enable us to cure the milder cases without operation. The worse cases are operated upon by an ingenious method of our own invention, which we employed over five hundred times during the past year and with the greatest success.

A POLICEMAN'S NERVE

is a mighty important thing. He has to have plenty of it to fill his job right. Nerves will not thrive on doughnuts and coffee—no one realizes this more than a policeman.

Food—of the right kind and quality—is a big factor in producing and maintaining strength.

We know of no more nourishing food than vegetables. And we know of no better vegetables than our

“JIPCO” CANNED VEGETABLES

These are the “pick of the fields” and are packed immediately after being gathered. That's why they taste so sweet and fresh

Firestone

SECURITY

First for safety in any kind of going. The sharp edges, abrupt angles and deep vacuum-creating hollows hold the car true always.

Firestone Non-Skid Tires

are most economical too. Extra tread—most mileage—extra traction—least gasoline—extra resiliency—least car up-keep—most comfort.

"What's What in Tires," Free. Ask for this book before you buy *any* tire.
